Anyone interested in facilitating groups should attend a session!

New EHR Coming Soon!

Need Help? Email Kris Stoops for a link to a Google Doc designed to assist you with step by step instructions on the AdvancedMD system.

Children & Adolescent Mental Health

2023 was a year of significant growth in
Highland County Schools.

Hillsboro Elementary, High School & Alternative
School provided an office space specifically
designed for REACH. The relationship with the
Administration and school counselors has grown
thanks to the efforts of Derek Ames, REACH
Youth Coordinator.

One improvement made this year was to divide
the caseload by grade levels which provided a
more efficient use of the office space. We have a
QBHS full time in the elementary, Middle School
High School and Alternative School.

Jean Little has worked closely with the
Administration in the Greenfield School System
and is actively growing the REACH presence
there.

The Wilmington School system has reached out
to our Youth Coordinator asking for possible
support in the very near future. Are you
interested in working in a school environment?
Let us help you build a relationship with a school
near you!

Derek Ames
Youth Coordinator
